

ILFORD TOWN CENTRE RADIO SECURITY SCHEME

The radio security scheme in Ilford is provided by Ilford Business Improvement District (BID). The scheme links together the BID's Town Centre Police Team, Street Ambassador, CCTV and over 75 businesses, allowing users to share information and intelligence in real time.

As well as the physical radio, there are other benefits to membership of the scheme including;

- Regular briefings/information sharing meetings
- Personal radio training and regular Street Ambassador visits
- Known offender information/photos
- Exclusion Scheme for persistent offenders
- Newsletters, text updates

The scheme offers members a sustainable, robust and effective crime reduction initiative at a cost of just £1 a day, paid annually.

The radio scheme provides our staff with real time communication with CCTV as well as the Town Centre Police team. It is very effective in assisting us in tackling crime.

Graham Baxter, Store Manager, Wilko
